FLINT'S FINE FURNITURE

LOTUS-SEEDS OF ART.

A peculiarity of the lotus has made it from time immemorial a symbol of creative power. Instead of rejecting its seeds from their vessels, it nourishes them in its bosom till they have become perfect plants; when, arrayed in the irresistible panoply of grace and beauty, they spring forth, Minerva-like, from down the current, and take root wherever deposited.

A perfect symbol of our factories and store today. Not an imperfect piece of furniture ever leaves our factory doors. Not until a design is clothed in all the grace and beauty that fine materials, taste, skill, and care can give it, is it permitted to appear in our warehouses.

What an opportunity—with a great multitude of these flawless plants of decorative art in the store ready to spring forth at a touch—what an opportunity to seize them and guide them down the Christmas current!

And what a lifetime of delight for the fortunate soul at whose door they are deposited!

HOPE FOR THE LABOR TEMPLE.

C. L. U. COMMITTEE REPORTS PROGRESS—CONTINUED

At the meeting of the Central Labor Union yesterday Mr. Fitzgerald, chairman of the committee in charge of the new Labor Exchange, declared that the Exchange was now ready to furnish some goods to members of labor organizations at 50 per cent less than the prices usually charged. Among the articles are hats. "We are able now," continued Mr. Fitzgerald, "to furnish hats that will fit any head in the Central Labor Union, although some of the heads are pretty large at that."

Mr. Fitzgerald added that the committee appointed to formulate a plan for the erection of a labor temple was making progress, and he thought that the temple would eventually be a reality. Philip Kelly, delegate of the seceding faction of the Liberty Dawn Association, of Coach and Cab Drivers, John F. Maher, the former delegate, was elected to the Assembly on the Tammany Hall ticket, and some of the "Liberty Dawners" immediately seceded. Assemblyman-elect Maher was immediately elected.

The effects of the late political campaign are still felt in the Central Labor Union, and there was a lively wrangle over an effort made by some of the delegates yesterday to obtain the privilege of the floor for Frank Bowser, of the seceding faction of the Liberty Dawn Association, of Coach and Cab Drivers. John F. Maher, the former delegate, was elected to the Assembly on the Tammany Hall ticket, and some of the "Liberty Dawners" immediately seceded. Assemblyman-elect Maher was immediately elected.

George Washington Jones, delegate of the Clothing Cutters' Union, reported that one clothing house was now selling clothing with the union label on it, and he advised workmen to patronize the house. Delegate Richards, of the Barber's Union, declared that the police were not enforcing the law relating to the closing of barber shops on Sunday. He said that many of the shops, where shaving was done for three and five cents, and some of the ten-cent shops, were permitted to remain open Sunday afternoons. He added that several committees had called at Police Headquarters and complained, but there had been no results. The secretary was instructed to write to Mr. Miner, and also to Weber & Fields, requesting them to "unionize" their shops.

TELEGRAPHIC NOTES.

Pittsburg, Dec. 19.—Charles L. Childs, said to be an ex-member of Congress from Illinois and at one time a Probate Judge in that State, died yesterday at the Allegheny County Home. Since coming to this city several years ago, and until recently, Childs has been making a precarious living peddling vinegar and catsup.

Chicago, Dec. 19.—"Chris" Merry, charged with the murder of his wife, and James Smith, alleged accomplice of Merry, arrived in Chicago today from Princeton, Ky., where they were arrested. This afternoon both men were confronted by Joseph Hickey, on whose confession they were arrested, but they stoutly denied any knowledge of the Merry's death. They were placed in jail pending an examination on Tuesday.

Vinto, I. T., Dec. 19.—The sale of the Central Branch of the Atlantic and Pacific, a branch of the "Prisco" took place here yesterday. E. O. Henderson, bidding \$2,000. It was sold to him and by him transferred at once to the "Prisco" company, which owns the bonds. Mr. Henderson is the general counsel of the "Prisco" company. The sale was under decree of foreclosure of the Federal Court. The line extends from Sausalito to Sausalito.

THE FUTURE OF SATAN.

DR. HALDEMAN SAYS HE WILL COME OUT OF THE EAST AND CONQUER THE WORLD BY DECEIT.

The Rev. I. M. Haldean, in the First Baptist Church, Seventy-ninth-st. and the Boulevard, last night preached an old-fashioned sermon on "The Future of Satan." "Satan," he said, "will appear as a wonderful man out of the East and conquer the world by deceit. He will be a great soldier, a diplomat, a scientist and an adept in things occult, to the extent that he will be able to make images speak and raise himself from apparent death. He will establish himself in Jerusalem, and deceive the world into believing that he is God."

"In the end Christ will descend out of heaven, and the Church will rise to meet Him. But they will be opposed by Satan and his hosts. Then will take place the battle between Michael the Archangel and the host of heaven, and Satan with his hosts will be overcome and cast for a thousand years into prison. At the expiration of that term he will be liberated, and will again deceive some of the people. His time will be short, however, for

he and his friends will be swept into hell forever." Satan, the preacher said, was a powerful angel to whom God entrusted this world in the beginning. The angel became ambitious to rival God, and was cast out of heaven. Dr. Haldean read passages from the Bible to substantiate all his description of Satan's future.

DR. GOTTHEL REFERS TO DREYFUS.

"How Justice Exalts a Nation" was the title of the sermon preached by the Rev. Dr. Gustav Gotthel at the Temple Emanuel-EI yesterday. In the course of his sermon Dr. Gotthel made passing reference to the late municipal election. The greater city, he said, would soon outstrip any municipality of the Old World. It was to be regretted, however, that the people were still under the control of political bosses. The result must be a sorry disappointment to all lovers of good government. Nevertheless, he was convinced that the incoming administration would rule wisely and with economy.

Dr. Gotthel made veiled reference to the case of Captain Dreyfus, the degraded French army officer, when he said:

"France, that nation whose early history was fraught with so much sorrow and distress, has made a grievous mistake in the imprisonment of one of its most faithful soldiers. With a wife wearying herself in mind and body to secure justice for her innocent husband, the event is one of the most sorrowful that country has seen since her establishment as a republic."

"What answer does France make to this woman's appeal? Simply that the honor of the military does not permit a revision of the evidence which sent her husband to a living death. No other civilized country, with one possible exception, would treat a man so."

TO EXHIBIT ALASKAN PRODUCTS.

San Francisco, Dec. 19.—A special car dispatched by the Alaska Trade Committee is on its way East. It contains an exhibit of Alaskan products and Arctic costumes, and is accompanied by Secretary Arcton and his wife, and Charles A. Taylor, who will speak to the people on the route regarding the recent gold discoveries and the advantages of San Francisco as a point of departure for the Klondike. John E. Bennett, a writer and lecturer of Berkeley, will start in a few days on a similar mission.
